HOW TO WATCH WRESTLING

WHATS HAPPENING
FIRST: Both wrestlers come forward to the center of the mat and shake hands.
NEXT: The referee blows his whistle and signals "wrestle".
NOW: Each wrestler is trying to get his opponent off of his feet and wind up on top of or behind him in control. This is a "TAKEDOWN"
POINTS: The first points are likely to be given for a takedowns,
THEN: The defensive (usually bottom man) wrestler is trying to escape (get away) or reverse his position to get on top or behind his opponent. The offensive (usually the top man) wrestler is trying to get a hold with which he can keep his opponents shoulder on the mat for two seconds. A PIN.

Each match has three periods, which are two minutes long.
FIRST PERIOD: Starts from standing or neutral position. No control for either wrestler.
SECOND PERIOD: Starts from the "referees position". One wrestler in the top position (advantage) and the other wrestler in the bottom position (disadvantage).
THIRD PERIOD: Starts with the position at the start of the 2nd. Period reversed.
 ANYTIME A PIN OCCURS - THE MATCH IS ENDED

INDIVIDUAL SCORING
Takedowns - 2pts. Whenever one wrestler takes his opponent off his feet and gets on top of or behind from a standing position.
Escape - 1pt. Whenever a defensive wrestler gains a position where his opponent is no longer on top or behind him
Reversal - 2pts. Whenever a defensive wrestler changes positions with his opponent and is now on top or behind.
Near Fall - 2pts. When a wrestler exposes his opponents back to the mat or for less then 5 seconds
 3pts. When a wrestler exposes his opponents back to the mat for more then 5 seconds
Stalling - 1-2pts. Awarded to the opponent having a position where of advantage and fails to make an honest attempt to pin. Or - in standing, one wrestler is avoiding contact & backs away.
